The Friends of the Sherrills Ford Library are working with Catawba County to plan a new library for this area opening in 2013. We have emphasized needs such as:

- Dedicated Children's Area
- Meeting facilities that can:
 - accommodate large groups as well as be divided into smaller areas
 - be used for different kinds of classes
 - have a warming kitchen
- More computers available for residents to use
- Social areas where folks can meet and talk as well as reading areas
- Adequate parking
- Incorporating green space in the design of the building and grounds
- Ability to grow with the area

Now it is your turn. The County wants input from the residents of Sherrills Ford and Terrell on what WE need in our new Library.

Your ideas for the architects are critical in order for this building to be a centerpiece of the community.
